

HELLO HELLO

Chip Challenge

SUPPLIES

- 1 quart ziplock bag
- Kleenex
- 3 x 5 box (or bigger, depending on size of ziplock when filled with kleenex and chip)
- Scotch tape

STEP ONE

Take the ziplock bag and place the chip inside. Then gently place kleenex around the chip (you shouldn't be able to see the chip when the bag is full).

STEP 2

Next, seal the bag and tape it shut (don't use too much, you only need a little).

STEP 3

Now take the bag and place it in the center of your box (if there is extra space between the bag and box, proceed to step 4. If not, keep reading this slide.)

Seal the box with tape (You may need to use duct tape for this part).

STEP 4

So there is room between the box and bag. Here's what to do. Place kleenex between the sides of the box and the ziplock bag (It shouldn't be able to move that much if at all)

STEP 5

Now you're almost done. Seal the box with tape. Now you're ready to go!

P.S

*Make sure to pack the kleenex gently in the bag, we don't want the chip breaking before we mail it!

*If the ziplock appears to be loose, blow into it a little and fill it with air

Our estimated score is 4
